

RIZON

PEGASUS 200 HD

Portable Tandem Turnstile

Common Applications

- Security Checkpoints
- Property Protection
- Employee and Visitor Access Control
- Ticket Booths
- Property Surveillance

The Rizon Pegasus 200 HD redefines secure, mobile workforce entry with a rugged, compact design engineered for rapid deployment and seamless integration. Built from the ground up, this 10 ft high cube shipping container is expertly converted to house the Rizon Helios 200 — a tandem, two-lane, full-height turnstile system — delivering uncompromising access control in even the most demanding environments.

Key Features:

- Tandem Full-Height Turnstiles (Helios 200): Provides secure, high-throughput, bidirectional access with two independent lanes, ideal for managing large site volumes efficiently.
- Roll-Up Doors: Designed for convenience, protection, and quick access during deployment or maintenance.
- Interior Lighting: Ensures safe and efficient use in low-light or night-time conditions.
- NEMA Enclosures: Weather-resistant, secure housing for access control hardware and connectivity equipment.
