

RIZON

PEGASUS GB ECO

Portable Guard Booth

Common Applications

- Security Checkpoints
- Property Protection
- Employee and Visitor Access Control
- Ticket Booths
- Property Surveillance

The Rizon Pegasus GB ECO Guard Booth delivers a durable, practical, and comfortable security solution for demanding jobsite and facility environments. Built from an 8' x 10' high-cube shipping container, the GB ECO is converted into a fully finished guard booth designed to comfortably accommodate two personnel. The interior features two built-in folding desks, integrated heating and air conditioning, convenient electrical outlets, and bright LED lighting to create a functional workspace in any season. Windows on all sides provide excellent visibility around the booth, helping security personnel maintain a clear view of surrounding activity. It is also compatible with the GB-VA XL vehicle gate platform.
