JOBSITE MANAGEMENT FROM THE PALM OF YOUR HAND

What Rizon Software does for you:

- Elimination of Paper for worker records
- Remotely onboard workers before they arrive to site
- Modernize safety by digitizing safety incident reporting and safety documentation
- Quickly track and manage your on site equipment within the app
- Save money - reduction of builder's risk insurance premiums, save money on payroll, reduce long term and short term liability, increase on site efficiency

An easy-to-use app-based system for paperless on-boarding of employees and subcontractors, including remote enrollment with facial recognition technology—eliminating the need for badges.

Manage your job site in one place, covering employees, subcontractors, safety, and equipment, with seamless integration to platforms like Procore and BIM 360. AI-powered tools automatically identify trends and issues for proactive management.

Basic Platform

Workforce and Access Management

Safety Pro Platform

Safety observations, toolbox talks, PTPs, JHAs, inspections, safety tours, training, and SLING—a tool powered by AI to generate a safety score for your jobsite. Includes subcontractor management and equipment tracking.

Sitevision Upgrade

Harnesses the power of camera technology and AI powered computer vision to give you a complete view of whats happening throughout your jobsite.

Facial Recognition

Supports multiple access methods: smartphones, proximity readers, and facial recognition.

All-In-One Hybrid

An Integrated Powerhouse platform combining workforce management and access control.

Data Security

Secure cloud services and full source code control.

Direct ROI

Reduced paperwork, streamlined workforce monitoring, and insurance cost savings.

Unmatched Reliability

Single point of contact for all services.

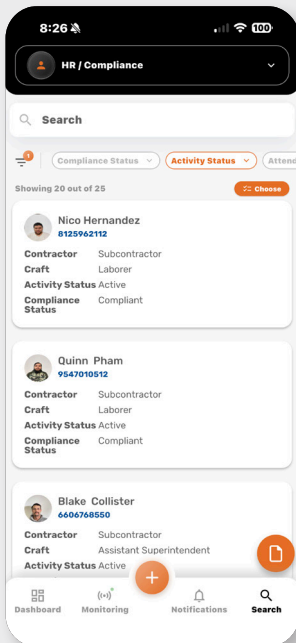

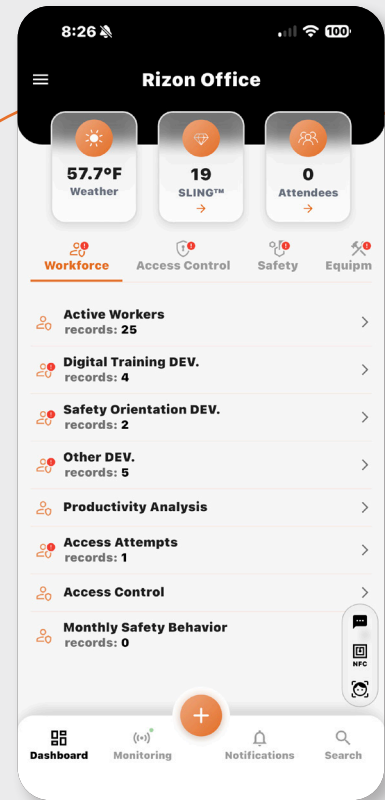

Industry Leading

A good variety of feature add-ons and third-party integration options.

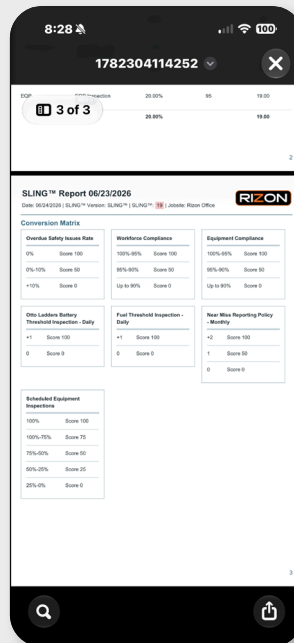

WORKFORCE COMPLIANCE

- Compliance Control
- Safety Behavior
- Licenses & Certifications
- Attendance Management
- Training & CEU's

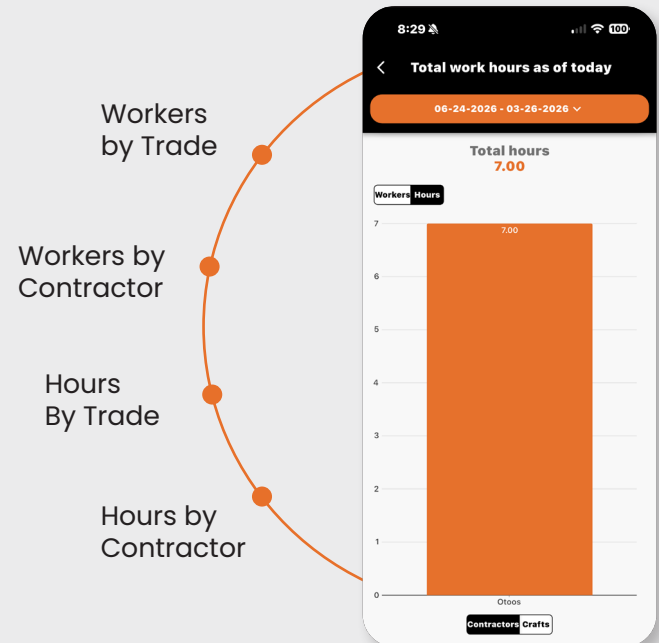

Rizon's AI-Assistant is a real-time safety guide powered by generative AI, designed to optimize risk mitigation strategies. It enhances safety meetings with AI-driven topic suggestions tailored for targeted risk mitigation.

Productivity Analysis

WHAT SETS US APART

In a competitive “red ocean” market, companies choose their trade partners based on shared values and beliefs. As an American-owned family business, Rizon prioritizes these values as a cornerstone of its identity.

Elevate your construction operations with Rizon’s software that ensures site security and compliance, builds trust with your clients, and positions your company as a leader in workforce safety and solutions.

MESSAGE FROM THE CEO

At the intersection of security, safety, and productivity lies Rizon’s promise to ensure service continuity, empowering construction general contractors to manage their workforce and protect the integrity of their projects. Providing value to our partners is our purpose.

We care deeply about the lives of construction workers and their right to earn with dignity. We firmly believe this can be achieved while increasing growth and profitability.

With generations rooted in the construction industry, we cherish the principle of business continuity. This is why we are committed to delivering end-to-end turnkey solutions for all your workforce management needs.

Harnessing the power of our manufacturing capabilities, we have scouted and integrated the best available software technologies. This ensures that our solutions are not only cutting-edge but also tailored to meet the unique demands of the construction industry.

We seal this offering with an uncompromising commitment to service. Our team is dedicated to providing seamless support and ensuring that your workforce management needs are fully addressed, from implementation to ongoing assistance.

Our promise to protect your reputation is built on providing state-of-the-art security, safety, and productivity—all just one phone call away. And when you already have one of our products installed, that same phone call gets you the support you need, when you need it most.

Committed to your success,
Eric Mager, CEO
Rizon

PORTABLE TURNSTILES

RIZON PEGASUS 100 ECO

RIZON PEGASUS 100 PRO

RIZON PEGASUS 200 PRO

PEGASUS 100 ECO KEY FEATURES

All steel construction

Galvanized finish

Integrates with any Access Control system

PEGASUS 100 + 200 PRO KEY FEATURES

Built in electronics enclosure all-in-one design

Forklift pockets for fast deployment

Kits to link multiple units can be linked together in any combination

Fully Integrated with Rizon's Ultimate Reader (facial recognition/card reader electronics technology)

Integrates with any Access control system

RIZON HD SERIES

Introducing the Rizon Pegasus HD Series – a game-changer in construction site safety, security, and operations. This innovative lineup of containerized turnstile and guard booth solutions is designed for quick, hassle-free deployment and is available in both 20-foot and 40-foot configurations.

With the HD Series, Rizon delivers the most comprehensive and cost-effective suite of turnstile solutions for construction sites.

KEY FEATURES

HD series units ship ready to go for a simple plug-and-play setup. Compatible with any access control system

Available with or without Rizon's AI-powered safety and workforce management software

In-stock in all configurations

Featuring world-class Rizon Helios full-height turnstiles, integrated guard booths, and built-in AC/Heat for year-round comfort

Designed with windows and roll-up doors for easy use, mobility, and durability in demanding construction site conditions

[CHECK THEM OUT >>](#)

TAKE IT TO THE MAX

Upgrade any of our turnstile solutions to a 'MAX'

Four times the throughput of a full-height turnstile. This means you need fewer lanes, which saves space in tight locations

Ideal for workers carrying tools and equipment

Be alerted that a worker has tailgated in our workforce management app and an audible alarm

Allow for safe egress as gates open automatically for emergency conditions

RIZON HD SERIES

RIZON PEGASUS 200 HD

RIZON PEGASUS 400 HD

RIZON PEGASUS 800 HD

PEGASUS 400 HD KEY FEATURES

Four lanes of pedestrian flow

PEGASUS 800 HD KEY FEATURES

Eight lanes of pedestrian flow

OTHER SOLUTIONS ARE AVAILABLE

Rizon's lineup includes smaller configurations of containerized turnstile guard booths.

PEGASUS GUARD BOOTH HD

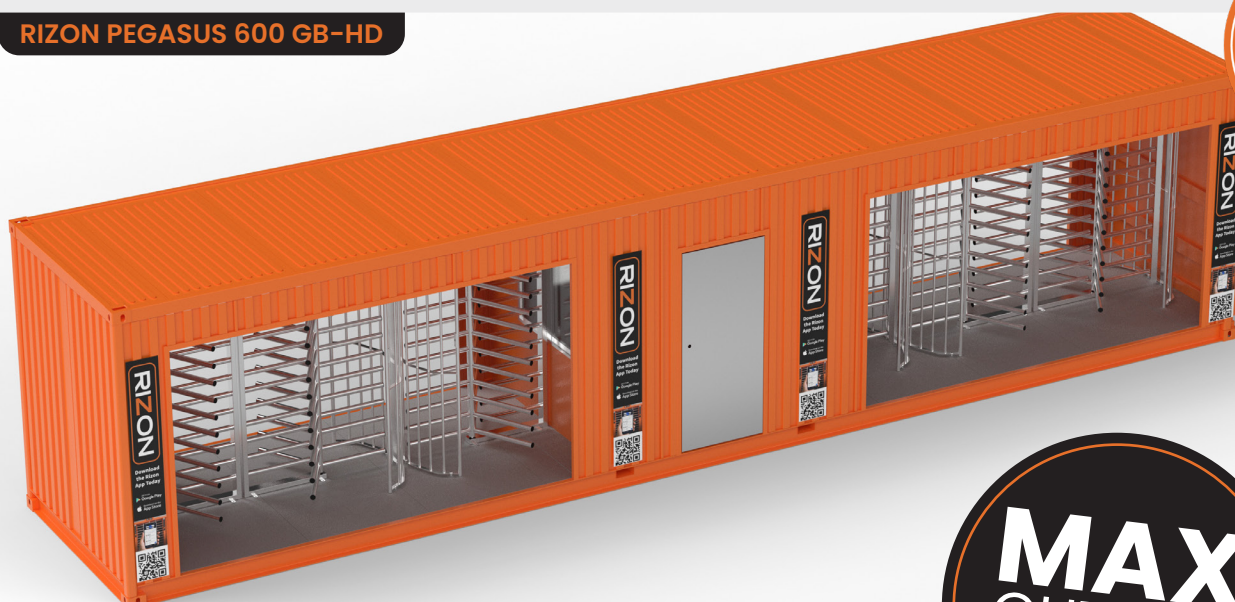

RIZON PEGASUS 200 GB-HD

RIZON PEGASUS 200 GB-HD SPLIT

RIZON PEGASUS 600 GB-HD

KEY FEATURES

All steel construction

Rizon Standard or Custom Color Options

Single and Tandem Configurations

Integrates with any Access Control system

Built In AC/Heat

RIZON'S ULTIMATE READER

The Rizon Ultimate Reader is a cutting-edge, multi-modal authentication device purpose-built to enhance the functionality of Rizon products. Engineered for seamless integration across the Rizon product line, this compact yet powerful unit combines next-generation security features with intuitive user interaction. Whether it's granting authorized entry or facilitating fast, contactless payments, the Rizon Ultimate Reader delivers unmatched performance with a sleek, modern design. With its built-in digital display, the Ultimate Reader not only serves as a user interface for input via a digital keypad but also provides real-time visual feedback—clearly indicating success, failure, or required user action. Its advanced facial recognition technology, combined with NFC (Near Field Communication) capabilities, offers fast, secure, and flexible authentication for a wide range of environments, from commercial buildings to construction sites.

KEY FEATURES

Multi-modal authentication – Supports facial recognition, NFC, and PIN input via digital keypad.

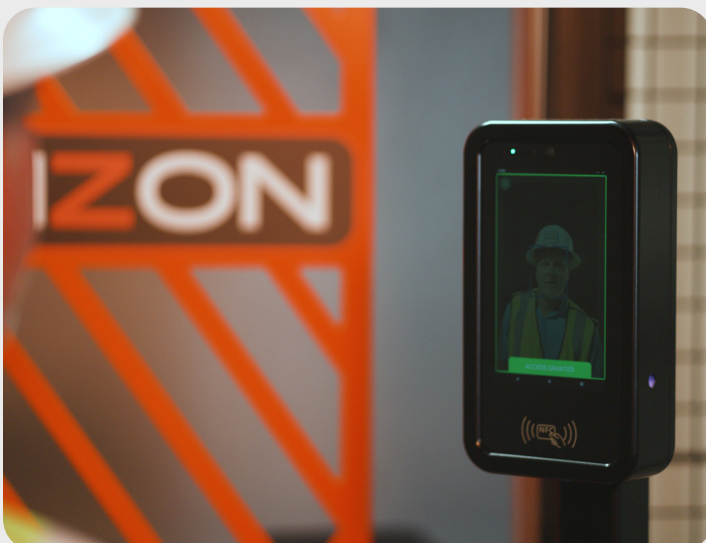

Dynamic digital screen – Provides intuitive feedback and interaction for a smooth user experience.

Advanced facial recognition – Fast and reliable biometric authentication with anti-spoofing technology.

Contactless NFC support – Enables quick tap-to-authorize functionality for cards, phones, or wearables.

Compact and mount-ready – Designed specifically for easy installation on Rizon devices and infrastructure.

Visual feedback indicators – Immediate confirmation of access status with clear on-screen prompts and animations.
