JOBSITE MANAGEMENT FROM THE PALM OF YOUR HAND

What Rizon Software does for you:

- Elimination of Paper for worker records
- Remotely onboard workers before they arrive to site
- Modernize safety by digitizing safety incident reporting and safety documentation
- Quickly track and manage your on site equipment within the app
- Save money - reduction of builder's risk insurance premiums, save money on payroll, reduce long term and short term liability, increase on site efficiency

An easy-to-use app-based system for paperless on-boarding of employees and subcontractors, including remote enrollment with facial recognition technology—eliminating the need for badges.

Manage your job site in one place, covering employees, subcontractors, safety, and equipment, with seamless integration to platforms like Procore and BIM 360. AI-powered tools automatically identify trends and issues for proactive management.

✓ BASIC PLATFORM

Workforce and Access Management

✓ STANDARD PLATFORM

Safety observations, toolbox talks, PTPs, JHAs, inspections, safety tours, training, and SLING—a tool powered by AI to generate a safety score for your jobsite. Includes subcontractor management and equipment tracking.

✓ SITEVISION UPGRADE

Harnesses the power of camera technology and AI powered computer vision to give you a complete view of whats happening throughout your jobsite.

THE WORKFORCE MANAGEMENT AND SAFETY SOLUTION YOU'VE BEEN LOOKING FOR

FACIAL RECOGNITION

Supports multiple access methods: smartphones, proximity readers, and facial recognition.

DIRECT ROI

Reduced paperwork, streamlined workforce monitoring, and insurance cost savings.

ALL-IN-ONE HYBRID

An Integrated Powerhouse platform combining workforce management and access control.

UNMATCHED RELIABILITY

Single point of contact for all services.

DATA SECURITY

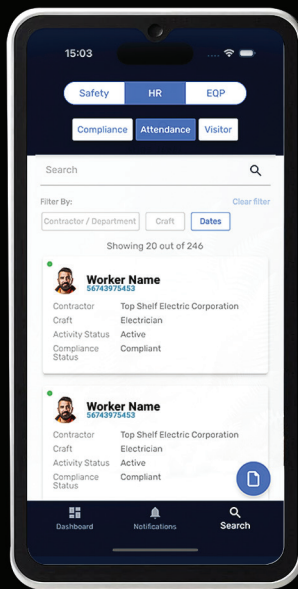

Secure cloud services and full source code control.

INDUSTRY LEADING

A good variety of feature add-ons and third-party integration options.

RIZON HD SERIES

Introducing the Rizon Pegasus HD Series – a game-changer in construction site safety, security, and operations. This innovative lineup of containerized turnstile and guard booth solutions is designed for quick, hassle-free deployment and is available in both 20-foot and 40-foot configurations.

With the HD Series, Rizon delivers the most comprehensive and cost-effective suite of turnstile solutions for construction sites.

KEY FEATURES

On-site delivery, setup, and reliable service from The Turnstile Guys at Avant-Garde, North America's largest turnstile contractor

Available with or without Rizon's AI-powered safety and workforce management software

In-stock in all configurations

Featuring world-class Rizon Helios full-height turnstiles, integrated guard booths, and built-in AC/Heat for year-round comfort

Designed with windows and roll-up doors for easy use, mobility, and durability in demanding construction site conditions

CHECK THEM OUT »

TAKE IT TO THE MAX

Upgrade any of our turnstile solutions to a 'MAX'

Four times the throughput of a full-height turnstile. This means you need fewer lanes, which saves space in tight locations

Ideal for workers carrying tools and equipment

Be alerted that a worker has tailgated in our workforce management app and an audible alarm

Allow for safe egress as gates open automatically for emergency conditions

WHAT SETS US APART

In a competitive "red ocean" market, companies choose their trade partners based on shared values and beliefs. As an American-owned family business, Rizon prioritizes these values as a cornerstone of its identity.

Elevate your construction operations with Rizon's software that ensures site security and compliance, builds trust with your clients, and positions your company as a leader in workforce safety and solutions.

MESSAGE FROM THE CEO

*At the intersection of security, safety, and productivity lies Rizon's promise to ensure service continuity, empowering construction general contractors to manage their workforce and protect the integrity of their projects. **Providing value to our partners is our purpose.***

We care deeply about the lives of construction workers and their right to earn with dignity. We firmly believe this can be achieved while increasing growth and profitability.

With generations rooted in the construction industry, we cherish the principle of business continuity. This is why we are committed to delivering end-to-end turnkey solutions for all your workforce management needs.

Harnessing the power of our manufacturing capabilities, we have scouted and integrated the best available software technologies. This ensures that our solutions are not only cutting-edge but also tailored to meet the unique demands of the construction industry.

We seal this offering with an uncompromising commitment to service. Our team is dedicated to providing seamless support and ensuring that your workforce management needs are fully addressed, from implementation to ongoing assistance.

Our promise to protect your reputation is built on providing state-of-the-art security, safety, and productivity—all just one phone call away. And when you already have one of our products installed, that same phone call gets you the support you need, when you need it most.

Committed to your success,
Eric Mager, CEO
Rizon
