

RIZON

Pegasus 400 HD

Containerized Unit With Full Height Turnstiles

Common Applications

- Perimeter control/fence line security
- Time and attendance integration
- Loss prevention
- Employee and visitor access control
- Unmanned point of entry
- Single-direction traffic control/one-way exiting

The Rizon Pegasus 400 HD is a robust and versatile 20 ft shipping container, expertly refitted to provide a secure, high-capacity secured entry solution. Equipped with two Helios 200 tandem full-height turnstiles, this unit offers unparalleled security and controlled entry, making it ideal for high-traffic areas where maintaining strict access control is a priority. The Pegasus 400 HD features roll-up doors, allowing easy, controlled entry and exit while keeping the interior sealed off when not in use. This design discourages lingering inside the container, ensuring that only authorized personnel are able to access the secure environment. Inside the container, you'll find ample space and built-in provisions for mounting access control electronics such as card readers, biometric scanners, and security cameras, providing a seamless integration of technology to manage and monitor entry. Whether used as a standalone unit or as part of a larger security infrastructure, the Rizon Pegasus 400 HD offers unmatched durability, security, and flexibility, making it a cutting-edge solution for a variety of applications.
